

**Sawtooth Range Structure Conventional Oil and Gas, Assessment Unit 50270102**  
**Assessment Results Summary**

[MMBO, million barrels of oil. BCFG, billion cubic feet of gas. MMBNGL, million barrels of natural gas liquids. MAS, minimum accumulation size assessed (MMBO or BCFG). Prob., probability (including both geologic and accessibility probabilities) of at least one additional accumulation equal to or greater than the MAS. Accums., accumulations. Results shown are fully risked estimates. For gas accumulations all liquids are included as NGL (natural gas liquids). F95 represents a 95 percent chance of at least the amount tabulated. Other fractiles are defined similarly. Fractiles are additive under the assumption of perfect positive correlation. Shading indicates not applicable]

Accumulation Type	MAS	Prob. (0-1)	Undiscovered Conventional Resources												Largest Undiscovered Accumulation (MMBO or BCFG)			
			Oil (MMBO)				Gas (BCFG)				NGL (MMBNGL)				F95	F50	F5	Mean
			F95	F50	F5	Mean	F95	F50	F5	Mean	F95	F50	F5	Mean
